2025 General Price List

MICROBIOLOGY								
Description	Method	Price	Turnaround Times		Recommended Container	Min Volume	Preservation	Holding Time
Enterococci	SM 9230 D	\$75.00	Next Day		Sterile Plastic	100 mL	4°C	8 hours
Fecal Streptococci	SM 9230 B	\$75.00	3-4 Days		Sterile Plastic	100 mL	4°C	8 hours
Fecal Streptococci & Enterococci	SM 9230 B	\$100.00	5 Days		Sterile Plastic	100 mL	4°C	8 hours
Psuedomonas Aeruginosa	SM 9215 G	\$50.00	Next Day		Sterile Plastic	100 mL	4°C	30 hours

* Each dilution requested to be reported is equal to the full price of an additional analysis (SM 9223 B, 9230 D, & 9215 G only).

* Extra dilutions requested to report a single result are free of charge.

* \$20 extraction fee may apply for solids & soil. (Microbiology Only)

* Holiday & weekend charges may apply. Contact your project manager for more information.

Total Residual Chlorine	\$35.00
Courier Service	Call for pricing

Prices may vary depending on sample details and are subject to change without notice unless otherwise contracted. Environmental Laboratory Network, Inc. will price match comparable services with proof of pricing, including dates & report turnaround times. Turnaround times do not include weekends or holidays with the exception of microbiological analyses. Standard turnaround times are estimated by the average performance time of the analyses, followed by a 24-hour period for review, approval, and reporting. Standard turnaround time is generally 6-10 business days, but may vary depending on workload, analyst, subcontractor (if applicable), and staffing levels.
